Professional Summary

MERN Stack Developer with hands-on experience developing and deploying full-stack web applications using React.js, Node.js, Express.js and MongoDB. Skilled in RESTful API development, JWT authentication, React Query, Redis caching, Razorpay integration and responsive UI development. Currently working as a MERN Stack Developer Intern with experience in Git, GitHub, Postman and cloud deployment using Vercel and Render.

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3
Frontend: React.js, React Router DOM, Tailwind CSS, TanStack Query, Axios
Backend: Node.js, Express.js, RESTful APIs
Database: MongoDB, Mongoose, Redis
Authentication & Payment: JWT, Authorization, bcrypt.js, Razorpay
Tools: Git, GitHub, Postman, VS Code, Vercel, Render, Nodemailer
Core Concepts: CRUD, Pagination, Search, Filtering, Sorting, Protected Routes, API Integration, Responsive Design

Experience

MERN Stack Developer Intern Nov 2025 - May 2026
Devlopers

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js and MongoDB.
- Built reusable and responsive UI components using React.js, Tailwind CSS and React Router DOM.
- Developed RESTful APIs and implemented JWT-based Authentication, Authorization and Protected Routes.
- Integrated third-party APIs, debugged application issues and contributed to feature development and performance improvements.
- Used Git and GitHub for version control, collaboration and maintaining application code.

Projects

MegaMart - Grocery Shopping Platform **Live Demo**

React.js | Node.js | Express.js | MongoDB | Redis | Razorpay

- Developed a full-stack grocery shopping platform with product browsing, categories, cart, wishlist and order management.
- Built RESTful APIs for products, categories, subcategories, cart, wishlist and orders with JWT-based authentication and protected routes.
- Integrated Razorpay for online payments and Nodemailer for automated order confirmation emails.
- Implemented Redis caching and admin CRUD operations for categories, subcategories and products.
- Designed a responsive interface using Tailwind CSS and deployed the frontend on Vercel and backend on Render.

Library Management System **Live Demo**

React.js | Node.js | Express.js | MongoDB | TanStack Query

- Developed a full-stack library management system for managing books, authors, categories, users and wishlists.
- Implemented JWT Authentication, Authorization, Protected Routes and RESTful APIs for secure application access.
- Implemented CRUD operations, pagination, search, sorting and wishlist functionality.
- Used TanStack Query for API fetching, caching and mutations with a responsive Tailwind CSS interface.

Movie Ticket Booking Platform **Live Demo**

React.js | Node.js | Express.js | MongoDB | Razorpay

- Developed a full-stack movie ticket booking platform with authentication, movie browsing, seat selection and booking workflow.
- Implemented JWT Authentication, Protected Routes and RESTful APIs for users, movies and bookings.
- Integrated Razorpay for online payments and Nodemailer for booking confirmation emails.
- Built responsive React components with React Router DOM and MongoDB/Mongoose for application data management.

Education

University of Allahabad Expected Graduation: 2027
Bachelor of Commerce (B.Com.) Prayagraj, Uttar Pradesh
